T2019

## CALL FOR LATE – BREAKING ABSTRACTS TOPICS FOR CONSIDERATION

### Topic Areas for Consideration

- Advocacy, education and behavioural change
- Alcohol and drug impaired pedestrians and cyclists
- Alcohol and drug testing, detection, measurement and forensics
- Alcohol biomarkers
- Cannabis and driving
- Challenges for low and middle-income countries
- Challenges for indigenous populations
- Challenges for underserved or minority populations
- Clinical signs of impairment
- Cognitive impairment (distraction, fatigue)
- Data, data integration and effective data analyses
- Epidemiology
- Ignition interlocks
- Legislation, enforcement, penalties and sanctions
- Monitoring alcohol consumption
- New technology
- New psychoactive substances, other illicit drugs and driving
- Over-the-counter-drugs, prescription drugs and driving
- Police training
- Policy studies
- Poly-substance use and driving
- Prevention, rehabilitation and treatment effectiveness
- Repeat and high-risk offenders (including disqualified and unlicensed drivers)
- Reporting standards for alcohol and drug related crashes
- Social and economic costs of impaired driving
- Toxicology and pharmacology
- Traffic safety culture
- Trends in alcohol and/or drug presence in fatally injured drivers
- Underutilized strategies for reducing impaired driving
- Young drivers
- Other

### Emerging Issues

- Alternative solutions to reduce impaired driving
- Automated vehicles and impaired driving
- Edibles and tinctures (cannabis) and driving
- Fleet safety post legalization of cannabis in Canada and other countries
- Interaction between cannabis and alcohol impairment as an emerging issue
- Interlocks on motorcycles
